Re: *In re Collegiate Athlete NIL Litigation*, Case No. 4:20-cv-03919-CW

Dear Judge Wilken:

I am a parent of one of the student-athletes objecting to the proposed roster limits in the settlement agreement in the above-referenced action. My son is on the men's golf team at Notre Dame and he filed an objection to the settlement. As he states in his objection, his coach told him that he does not want to cut anyone from the team, but that if the roster limits are imposed then my son will be cut. My husband and I have sought to learn as much as we can about why this is being threatened and whether there is anything that can be done to stop this. We found through social media that hundreds, if not thousands, of parents and their student-athletes have similar concerns. Over the past five months, I have inadvertently become a source for parents to ask questions about this issue via social media.

I reviewed the submissions filed on March 3, 2025 by the lawyers for the class of student-athletes and for the NCAA and saw that they claimed that only nine student-athletes had been cut as a result of roster limits. I know that thousands of athletes will be cut if the roster limits are imposed, but I also know that many, many more than nine athletes have already been cut.

So, I decided to create a survey to gather information about athletes who already have been cut from their teams this season (2024-2025). I created the survey on my own initiative, as a distraught parent, not at the request of any attorneys. I enrolled some other parents of student-athletes to help me design and implement the survey. The survey was captioned "*Survey of athletes who have been cut or are at risk of being cut from their teams*" and was posted on Instagram, X, Facebook, and Change.org. The survey shows that 563 student-athletes have already been, or will be, cut because of the proposed roster limits. A summary of the survey results, as well as the survey responses themselves, have been attached to this letter.

The survey asked for the athlete's NCAA ECID number, as well as their email address and phone number. I did not include these personal details on the attached spreadsheet out of respect for the student-athletes' privacy and because many of the student-athletes are concerned about revealing their personal information. Some student-athletes contacted me and told me that they had been cut from their team but that they would only submit information anonymously, I did

not include information from those athletes in the spreadsheet. I can provide the NCAA ECID numbers for the survey respondents under seal if the Court would like to verify that information.

The column headings in the attached spreadsheet are the questions asked in the survey. Some of the questions had some options that an athlete could choose. For example, "Already Cut" had two options that could be checked – Yes or No. For those who had not already been cut, the next question asked, "Will be cut if roster limits go through." I only included in the attached spreadsheet those athletes who responded Yes to one of those two questions. The student-athletes were then also asked "How many other team members were cut." Some teams had several athletes who completed the survey. But to avoid double counting any student-athlete who has already been cut, I titled the next column on the attached spreadsheet "Total cut from team" and I included it for only one athlete from that team, so that the total at the bottom of the spreadsheet in that column would be relevant. To simplify I created a summary cover page listing each school, the sport, how many athletes reported, and the total reported to come up with my overall total.

While I have done my best, there is no way to quantify the damage, because each team will make cuts that align with their respective seasons. For example, football has until their first game at the end of August to make cuts, which will likely result in thousands of student-athletes losing their spots. It seems clear as a parent of a student-athlete that the plaintiffs' attorneys have not anticipated, or even considered, the harm that *will* be caused by the proposed roster limits.

Student-athletes entering the transfer portal face tremendous stress in having to begin their recruiting anew and leave behind the friends they have made in college. These student-athletes significant emotional and financial harm as a direct result of the proposed roster limits. While it is required for the schools to maintain existing athletic scholarships, student-athletes fear losing access to essential services available only to student-athletes like academic tutoring, meal plans, health insurance, and books.

This has been a very frustrating and sad last few months. This journey started trying to help my son but has become so much larger. My heart breaks for all the athletes who live in fear of being cut from their teams and feel paralyzed to advocate for themselves.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Gloria Hollingshead", written over a horizontal line.

Gloria Hollingshead
Parent of Lance Hollingshead

Timestamp	Has the athlete ALREADY been CUT?	Has the athlete been told they will be cut ONLY if roster limits are approved as part of the House v. NCAA settlement?	ATHLETE	How many other members of the athlete's team have been or will be cut (not counting the athlete)? If not sure leave blank.	SCHOOL NAME	SPORT	What was the reason given by the School/Coach for having to make cuts?	Is the athlete a scholarship athlete (even partial)?	Did the athlete file an objection in the House v. NCAA case?	If the athlete did NOT file an objection, why not? (check all that apply)
3/17/2025 12:45:52	Yes	Yes	1		University of Missouri	Swimming	Roster Limits	Yes	No	Did not know it was an option
3/17/2025 13:04:41	No	No	1	20	Georgia Institute of Technology	Swimming	Financial	No	Yes
