Change In College Athletics

The Drake Group Issues Congressional Briefing Paper: "Computation of Title IX Compliance Under the Terms of the House v. NCAA Settlement"

WESTPORT, CT – July 28, 2025. The Drake Group has issued a Congressional Briefing Paper, "[Computation of Title IX Compliance Under the Terms of the House v. NCAA Settlement](#)" in response to multiple requests from U.S. House and Senate staff members who have queried The Drake Group concerning this topic.

Kassandra Ramsey, President of the Drake Group, issued the following statement:

"Responding to numerous questions received from Congressional staff members, the paper demonstrates how gender equity in the computation of financial benefits is calculated under Title IX, how this calculation is applied to institutions seeking to meet the new roster limits and restrictions on athletics financial benefits categories outlined in the *House v. NCAA* settlement, and how Title IX permits any institution to prioritize sports by financially supporting some sports better than others.

The Drake Group is a 501(c)(4) nonprofit advocacy organization working to better educate the U.S. Congress and higher education policymakers about critical issues in college athletics. As an academic think tank comprised of experts in sports management, sports economics, and sports law, we disseminate fact-based research and recommendations to assist policymakers in developing legislation related to intercollegiate athletics."
